## Work Experience

Gracenote  
Full Stack Web Developer

January 2017 - April 2017

- Developed a new Node.js api working extensively with MongoDB to form complex aggregate queries.
- Created a data management tool in AngularJS for none technical co-workers to manage clients website data across development environments.
- Developed in an agile work environment using Jira for tracking tasks and velocity.
- Debugged and developed a codebase with hundreds of sports widgets in AngularJS and Node.js using Webstorm.
- Developed a custom AngularJS directive for implementing an efficient scrolling table solution and tested for cross browser compatibility using browser stack.

CWD Law Incorporated  
Full Stack Web Developer

May 2016 - August 2016

- Completed the co-op work term objective of developing a prototype web application for the company to present to users.
- Worked on all aspects of the sites development, such as the sites design, code base and business logic.
- Worked on a pre-existing code base in Django, Bootstrap and jQuery and used Git for source control.
- Effectively communicated technical aspect of my work at the company to non-technical boss.

- Taught calculus to a high school student who achieved a final grade of A.
- Assessed the aspects of mathematics the student struggled with and developed methods to overcome the student's weaknesses.

Ela Greek Taverna, Halifax, NS

May 2013 - August 2014

Line Cook

- Prepared food for the diners in a fast paced environment, worked effectively as part of a team to ensure that orders were processed efficiently and to a high standard.

## Extra-Curricular Programming

Dalhousie IBM Bluemix NS Open Data Hackathon

5<sup>th</sup> - 6<sup>th</sup> March 2016

- Placed 2<sup>nd</sup> out of the 1<sup>st</sup> and 2<sup>nd</sup> year student category for creating a web application that helps users find a city to live in Nova Scotia by matching the users preferences with Nova Scotia open data records.
- Responsible for developing the front-end using Bootstrap and back-end using JavaScript in Node RED on the IBM Bluemix framework.

## Academic Achievements

Achieved the Dean's list during the 2014/2015 and 2015/2016 fall and winter semester with an average GPA over the semesters of 3.90.

Analyzed and wrote a report as part of a group project on the MapReduce process in the Hadoop framework with a focus on the data structures and algorithms involved.

Achieved the highest grade amongst my entire class on a midterm for my server-side scripting class where the focus of the test was on PHP.

Developed the translation and google maps features for a shark sighting mobile app using Ionic as part of a community outreach course for the shark identification network to increase shark sightings.

## Programming Course List

Computer science I	A
Computer Science II	A+
Computer Science III	A+
Intro to Web Site Creation	A
Concepts in Computing	A
Applications of Computing	B+
Server-Side Scripting	A+
Intro to Database Systems	A+
Software Development	A
Algorithms	A-
Object Oriented Programming	A
Web Centric Computing	A+
Community Outreach	A-
